You hold a work of art disguised as a map. This pictorial map created from original paintings is a one-of-a-kind guide showing each street in detail guiding you through the heart of Carmel. Take a moment over coffee – and enjoy the magic of discovery. Painted and published by Lisa Bryan of Sketches Collection 1994© created by Lisa and son, Ashley (Bryan)Day who have produced two books and eight different map styles and posters. Soon to come, more local images and *Carmel's 100th Anniversary Puzzle.* For further information or comments please contact Lisa at the above address.

Dedicated to my very creative parents; Edith Hope & Gaylord Bryan and loving support of my brother Don Bryan.
